

What is FUTURES?

The PAUSD FUTURES program is a student-focused program that serves students from Terman & Jordan Middle Schools, Paly & Gunn High Schools, the Post Secondary program, and Project Search. The FUTURES program builds on student strengths and potential, with opportunities for meaningful transferable academic, life, vocational and social/leisure skills. Our goal is to support our students to create quality lives, becoming integral parts of the community of Palo Alto as they transition from middle school to adulthood to live, work, learn and play in their community.
